SUMMARY

Full-Stack Developer skilled in Angular, React, NodeJs, ExpressJs, NestJs, and TypeScript, with a strong foundation in **DataStructures & algorithms**, and problem-solving. Experienced in creating responsive and modern UIs using Angular Signals, TailwindCSS. Passionate about learning new technologies and contributing to real-world software development teams.

TECHNICAL SKILLS

Programming Languages: JavaScript

Frontend: Html, Css, Angular, React, Redux, NgRx

Backend: NodeJS, NestJs, ExpressJs

Database: MongoDB

Tools & others: Git, GitHub, REST APIs

EDUCATION

Bahauddin Zakariya University
B.S. in Computer Science

Sep 2022 – Present
Multan, Pakistan

PROJECTS

ECommerce Website

Tech Stack

Angular, NestJs, MongoDB

Build a full-stack **eCommerce system** using **Angular (Signals)** and **NestJS**, designing modular REST APIs with **JWT-based** authentication. Implemented efficient client-side state management for **cart** and **wishlist**, ensuring consistent synchronization with backend services. Integrated **Stripe** payment gateway to handle secure checkout sessions and payment processing. Built responsive UI with TailwindCSS and optimized rendering performance by minimizing unnecessary component updates.

AI powered Notes generator

Tech Stack

ReactJs, NodeJs, ExpressJs, MongoDB

Built an AI powered Notes generator system that generates structured notes and answers queries from PDF files using a Retrieval-Augmented Generation (RAG) approach. Implemented document ingestion, text chunking, vector embeddings, and semantic search to retrieve relevant context and generate accurate, document-grounded responses.
